PRESIDENT'S MESSAGE: JIM BRADY

GAMA was first formed in 1965, so this year will be our 46th year as an association!

It is my honor to be your president for this year, which is my second tour of duty. If any member has questions, concerns, ideas, etc. please bring them to myself or the Executive. I am here to work for you!

Our association has worked hard over the years to further our interests within the construction industry. That's not to say that we haven't had our share of difficult times. It appears that through the mid 70's the association seemed to become dormant. However since then, it has been going strong and has become the leading association in the country. It was our association that started the Provincial Glaziers Association

of Alberta. It was also our association that spearheaded the group which created the Canadian Glass Association.

The next year is going to be a pivotal year in our industry.

The PGAA has been restructuring and re-organizing and is gearing up to take on new initiatives. One of which, is to partner with SAIT to create a "Master Glaziers" program, whereby our Journeymen can take courses to upgrade themselves on a continuing basis to stay current within our industry and Building Envelope Sciences.

The CGA is progressing nicely and is gearing up for new initiatives such as a new current revamped National Glazing

Specifications Manual. Also, to provide information and facts to the "FIT" program which is trying to encompass and regulate our trade into

Jim Brady, DESA Glass
GAMA President 2011

the practices of the residential windows industry. We need FIT to recognize our training programs and include those programs as part of their certification! We know our industry and what's best for it!

These 2 organizations are moving ahead and GAMA will be providing strong leadership at the Provincial and National levels. GAMA has long been the leading association in our country and our voice will help to keep these organizations focused.

Jim Brady
President of
GAMA

"GAMA has long been the leading association in our country and our voice will help to keep these organizations (PGAA & CGA) focused."

Jim Brady

“The 2010-2011 numbers continue to rise as these numbers have reached 160 seats in Calgary and 64 seats in Edmonton.”

*-Dennis Lidfors,
SAIT*

EDUCATION REPORT: DENNIS LIDFORS, SAIT

Facilities

The Calgary Glazier program is in its second year of training at the new shop located at Mayland Heights Campus. Some additional space has been provided by moving the swing-stage training equipment to a new location in the building. The Edmonton Glazier program is continuing in the new facility it has occupied since last year.

Curriculum

SAIT will be continuing to seek approval from Alberta Apprenticeship and Industry Training to change the course material

into the ILM format. In the meantime, SAIT has received approval and funding from AIT to do some preliminary upgrading to first year material along with “Blended Learning” objects such as improved graphics, animations internet links, and other online enhancements to augment the curriculum. Ron Walder has been contracted to work along with the SAIT Glazier instructors on this project.

Instructors

Full-time Calgary instructors Ed Dalzell, Brian Risbey, and Gene Aquilini have welcomed new Edmonton instructor,

Craig Stafford, to the Glazier instructional team. Craig has already delivered instruction to one first year and one 2nd year class in Edmonton.

APPRENTICES / INDUSTRY

Apprenticeship numbers for the 2009-2010 year were 160 seats in Calgary and 48 seats in Edmonton. The 2010-2011 numbers continue to rise as these numbers have reached 160 seats in Calgary and 64 seats in Edmonton. Also a ‘pre-trades’ class of 14 students ran in Calgary from September 28th to November

5th.

Special Thanks go out again to the glazing companies, GAMA and GTA associations, and the LAC/PAC committees. SAIT recognizes that they are the driving force for keeping up the momentum for training and certifying workers for the industry.

Future Commitments

If curriculum funding and the ILM project go forward, we will have to hire more instructors to cover off the existing instructor positions.

Company: Spectra Light Window Films Ltd.
Product: Custom Etch Film Project: Taiga Bioactives

CONCLUSION

For the academic year 2010-2011, class dates and student numbers reflect the number of apprentices that are in the system. Despite the economic downturn, the Glazier Trade is experiencing healthy registrations compared to most other apprenticeship trades. SAIT is trying to accommodate the new economic realities, but we recognize that it is the employers and associations are

in the best position to recruit, support, and promote the proper training and certification of workers in the Glazier Trade. Strong apprenticeship training and certification will serve the trade well, as the provincial economy recovers.

The instructors at SAIT were busy this year and installed a glass railing around the computer area and have posted the Lou Thomas, GAMA, GTA, Award Winner Recipients over the years! They welcome you to stop in say, ‘HI’ and browse around!

LOU THOMAS GLASS WORKER AWARD 2010! DARREN ULRICH

Lou Thomas grew up on a farm east of Edmonton in the Ardrossan area and was the youngest of six children. His career in the glass industry began in approximately 1958 with Canadian Pittsburgh Industries (CPI) working in both Edmonton and Regina before a promotion to branch manager took him to Victoria, B.C. He remained in Victoria until the branch closed due to corporate restructuring in the late 80's. He was then transferred to the Calgary operations and shortly after his arrival was promoted to branch manager. During his time in Calgary he became very active in GAMA and he

accepted the new role to be our very first Safety Chairman. Lou donated a lot of time and was very instrumental in getting safety issues up front and center in our industry.

Lou's career was cut short and he passed away following a short battle with cancer in 1994.

In recognition of his generous contribution to the glass industry GAMA has since created 'The Lou Thomas Glass Worker Award' in his memory.

The recipient, an apprentice

completing 3rd year is chosen by the instructors at SAIT based upon attitude, attendance, leadership, organizational skills, initiative and academic marks. This year's winner is Darren Ulrich, Ferguson Glass, and we wish him well in his career as a Glazier!

Lou Thomas Award Recipient for 2010
Darren Ulrich, Ferguson Glass

GAMA SCHOLARSHIP AWARD WINNER 2010! KEVIN BENTINAZZI

In 2009 & 2010 GAMA raised funds to establish the annual GAMA Scholarship award which is presented to the top 2nd year Glazing Apprentice in the SAIT program.

This award is recommended by the SAIT instructors based upon a student's academic & scholastic merit.

This year's recipient is Kevin Bentinazzi, Cal-Tech Glass! We wish Kevin all the best in his future endeavours as an up and coming Glazier!

GAMA Scholarship Award Winner 2010
Kevin Bentinazzi, Cal-Tech Glass

GAMA / CALGARY FASTENERS GAVE EACH 1ST, 2ND, 3RD, & 4TH YEAR APPRENTICE A \$400 GIFT CERTIFICATE!

For the past number of years GAMA and Calgary Fasteners have come together to donate a \$400 gift certificate to the top students in their year. This year recipients are as follows;

1st Year: Lisa Bedard, Alberta Glass

2nd Year: Dawari Miadonue, Alpine Glass

3rd Year: Darren Ulrich, Ferguson Glass

4th Year: Darren Ulrich, Ferguson Glass

We thank Ray Greenland, Attivo Glass along with Lee Miller, Calgary Fasteners for getting together and organizing these certificate for the Apprentices in our industry!

We wish these big Winners all the best in the coming years with

their great career choice as a Glazier!

The Winners!
L-R Dawari Miadonue (2nd Yr)
Lisa Bedard (1st Yr)
Darren Ulrich (3rd & 4th Yr)
Ray Greenland is helping Darren out!

VICE PRESIDENT'S REPORT; LEE MCRAE

**Lee McRae, Alberta Glass
GAMA Vice-President 2011**

First off I would like to congratulate Jim Brady as President of Gama and everyone else that is involved with keeping this organization pushing forward now and into

the future. It goes to show that with strong support we can make a difference in our industry for positive gain.

We have seen distinctive changes in the skyline within the past couple of years with an outlook of more to come in the future. The economic indicators are showing growth in Alberta, especially in the northern regions. Enhanced building techniques and innovative ideas are leading the way within our industry.

Education seems to be evolving with the times as well, as classroom enrollment seems to be picking up steam. This is very crucial in keeping our industry at the top of its game.

I welcome the opportunity to contribute to this organization over the next few years and beyond. We seem to have a great group of individuals aboard and the future looks very promising.

Lee McRae
Vice President

"I welcome the opportunity to contribute to the organization over the next few years and beyond."

Lee McRae,

GAMA Vice President

TREASURER / MEMBERSHIP REPORT

BECKY MCLAUGHLIN

**Becky McLaughlin, DESA Glass
Treasurer/Membership Chairperson 2011**

GAMA has 53 Member Companies to kick off 2011. I would like to take this opportunity to thank all the members for their continued support! GAMA dues include membership to GAMA, as well as membership to the Provincial Glass Association of Alberta (PGAA) and the Canadian Glass Association (CGA) as

well. If you know anyone interested in membership with GAMA, please do not hesitate to contact me at 403.520.5335 or via e-mail at bmclaughlin@desa.ca. Becky McLaughlin, BAppBA, CGA
GAMA Treasurer/Membership Chairperson 2011

*"GAMA has 53
Member Companies to
kick off 2011!"*

Becky McLaughlin,

GAMA Treasurer/Membership Chair

GAMA — INDUSTRY VOLUNTEER OF THE YEAR!

STEVE PETERSEN

**Steve Petersen,
Automated Entrances
2011 Volunteer of the Year!**

This years' recipient is Steve Petersen, Automated Entrances.

It is NOT easy for this board to make any determination as to who is most deserving to get this award in any given year! There are a lot of really good contenders who have given countless hours and effort to this organization and could be recipients, and probably will be in subsequent years. All one has to do is look back in the past newsletters, executive meeting minutes and take note as to who's name is repeatedly distinguished! This year's recipient is a deserving soul.

Steve Petersen's achievements and contributions have been long and extensive, here is a few of the contributions that he has given to this organization;
GAMA President 1999
Secretary 1995 & 1996
Newsletter Editor 1996 & 1997
Guest Speaker 1998 & 2001

& many more, too numerous to mention!

REPORT RICHARD NEAL

Certificate of Leadership

The PGAA continues to promote this program and issued 25 certificates to member companies in 2010. The program recognizes companies in four (4) distinct areas including Apprenticeship, Safety, Technical Training and Participation. 2012 will see a review of this program including the opportunities available for companies to be recognized as active participants in the program.

Web Site

We are excited to see the new Webb site incorporating PGAA, GTA and GAMA come on line in the spring. A highlight will be a calendar of events that will allow members to source information on upcoming events. We look forward to your feed back with suggestions and comments regarding the site.

Master Glazier Program

This is a new initiative that will eventually (hopefully) see a number of courses/seminars made available to Red Seal Journeymen. Completion of these courses and seminars will culminate in the Master Glazier Certification being issued by the PGAA. Preliminary discussions have been promising. With SAIT, who already provide our apprenticeship training, are helping us by coming on board and assisting with the preliminary development reviews. This is a long term and far reaching initiative that we hope will raise the "bar" for the glazing industry in this province and possibly across Canada.

Alberta Golf Challenge

Change! This year will see the inaugural Alberta Golf Challenge which replaces the traditional North/South Challenge. The tour-

Richard Neal, Ferguson Glass
PGA President & GAMA Representative

namment will be promoted as a fun day/fundraiser creating additional scholarships and bursaries and a fun and relaxed opportunity for participants to network. Incorporating a best ball format and some fun prize holes we look to you joining us in support of this program.

PGAA Golf Challenge

*Look for it in August
2011*

*Your GAMA
membership will keep
you posted!*

CALGARY CONSTRUCTION ASSOCIATION (CCA) REPORT RICHARD NEAL

The Calgary Construction Association along with affiliated trade associations, host a Construction Career Expo each year.

This will be the fifth year and the GAMA crew will once again be on hand to promote our industry to high school

Past years have seen large numbers of students in attendance providing them with an opportunity to get "hands" on in various trades including the glazing industry.

Last year we offered the students the opportunity to cut glass, attach pressure plates to frames, install a piece of balustrade glass and get correctly fitted with a safety harness and then lifted within a tripod, certainly a hands on and for some feet off the ground experience.

The interest generated in our industry at this event is amazing and is only equaled by the support from our member

2010 CCA Career Fair Expo

companies and the volunteers who support it.

This year the Expo will be held at the BMO Centre on Stampede Park on April 14th 2011.

The "future" is in our hands and as an association this is our chance to speak to the future.

*This year the CCA
Career Expo will be
held at the BMO
Centre on Stampede
Park on April 14th
2011.*

Al Ryland, Alumicor
GAMA Past President 2011

SAFETY REPORT TREVOR DICKINSON

Trevor Dickinson, Skyline Roofing
GAMA Safety Chairperson

As we enter 2011 we have seen the recent legislation passing of Bill 16 on November 17/ 2010 “distracted driving legislation” For Albertans this will be a real hurdle

for re-training the work force and enforcement of this law. The implementation of the new law is schedule to be in effect for the early spring with a 2-3 month grace period. Be proactive with your employer/ employees and work out a plan for safe communication within your company early, to get the bugs worked out. The Safety statistic `s of all WCB registered companies will be under the watchful eye of the public interest. With the newly granted access to the company records through the Alberta government the lacking employer will be held accountable publicly for not

maintaining an active safety program. This in turn can effect bidding invites as the General contractors will be keeping a close tabs on their sub- contractors.

This is my second year as the GAMA safety chair person; I appreciate the support from our previous and current executive, as well as our membership companies. Safety is a constant and ever-changing topic lets all keep active in its development for the betterment of our current and future trade’s people.

Sincerely,
Trevor Dickinson
GAMA Safety Chair 2011

PAST PRESIDENT’S MESSAGE: AL RYLAND

It’s now 2011 and the market seems to be coming around and we as an industry have survived reasonably unscathed.

I would like to thank the 2010 board of directors and the members of GAMA for a great year. I appreciate all the help and patience everyone afforded me in my term as president. It was a learning experience that I will always consider as time well spent.

Congratulations to Jim Brady the new president and the 2011 board of directors, please support GAMA’s volunteer board now and in the future. These men and women are taking time out of there day to help further the progress and influence of our association across Canada. The network of Glazing Associations across Canada is vital for the development of the industry we all work in every day.

There is a great deal of work that happens behind the scenes to make the glazing

industry a better industry to work in. Much of Canada as you may or may not know has a real problem with the apprenticeship and the educational areas of the glazing industry. GAMA provides a vital link between the industry and the providers of the specialized education required for the glazing industry. GAMA continues to think outside the box in the areas of training, education and scholarship opportunities. In 2010 GAMA has introduced another scholarship for the industries apprentices. There is also a new initiative being driven by the GAMA executive to develop a Master Glazier program of continuing education for the industry. This program could provide a method to continually update the industries human resource with the newest and most relevant information and techniques. This program could also provide a training resource for more than the apprenticeship component of our industry, Architects, consultants, and the

industries office staff may have opportunities to improve their knowledge of the industry through a suite of courses relevant to our industry that will be developed by Sait in conjunction with the GAMA sub-committee.

GAMA has started a process to update the website and in this process we will be centralizing the Edmonton, Calgary and the provincial associations on one site. There by having one central resource for all the associations’ activities.

GAMA will continue to move forward on the behalf of Alberta’s glass, glazing and architectural metal’s industry. The industry is very fortunate that many of the companies in our industry do support GAMA in its many efforts to improve the industries standing on the local, regional and Canadian scenes.

Alan Ryland
Past President

GUEST SPEAKER REPORT

GEORGE KENNEDY

Guest Speaker Report

For 2011 we have had two Guest Speakers so far this year. On January 14th we had Sam Berg Northwest Territory Manager and Ron Pitts Canadian Sales Manager from Technical Glass Products speaking about comprehensive understanding of fire protective glazing, how it relates to life safety and the many code challenges now faced in North America. On February 11th we had Cheryl Semple OH&S Compliance Officer talking about what happen in the past year with the new regulations and what

changes are expected in the coming year to keep our work force and the public safe.

In March the Spec Writers will be hosting the joint annual general meeting between Building Envelope Council and Glass and Architectural Metals Association date and time to be determined.

We are still looking for Guest Speakers for April, May, June, September and October. Please Contact me if you have a Guest Speaker in mind relative to our industry.

George Kennedy,
2011 Guest Speaker Chairperson

My email address is george.ken@shaw.ca or you can call me at 403 829 0265.

George Kennedy
Guest Speaker Chair

REPORT

STEPHEN HARGROVE

CGA report for GAMA News

The Canadian Glass Association continues to provide its members with programs and services to inform educate and promote the glass industry in Canada.

The past year has been busy for the Association with updating our website, offering online educational and self improvement courses to Members, publication of a Members Directory and organizing and hosting the Glass Connections Conference September 2010 in Burnaby British Columbia. The Glass Connection Conference is one day Trade show, networking and Technical educational program. It gives manufacturers and suppliers a ven-

ue to showcase their products and services and provides guest speakers to educate our members on important products and issues that are both regional and national.

There will be two Glass Connection Conferences in 2011. The first will be held in Toronto on May 3rd and the second is scheduled for Edmonton in September. For registration and information please visit our website, canadianglassassociation.com.

CGA is grateful for the support from the current Provincial and regional Glass Associations it represent and is in discussion with business

Stephen Hargrove, Wescom Glass
